Course Description: This graduate course is designed to combine classroom theory with practical application through job-related experiences. Students are actively employed in diverse organizations and agencies that relate to their graduate academic training and career objectives. Students will create obtainable SMART goals that apply to their personal and professional goals. Students will build skills related to interviewing etiquette to assist in successful job acquisition. Additionally, students will have the opportunity to reflect on supervisor feedback and their overall experience in the graduate internship.

Learning Outcomes: Upon completion of this course, the student should be able to:

1. Discover achievable SMART goals. **(LO1)**
2. Connect academic knowledge with a professional setting. **(LO2)**
3. Examine F-1 student visa requirements related to the authorization of curricular practical training (CPT) employment. **(LO3)**
4. Evaluate personal accomplishments and experiences related to master's program of study. **(LO4)**
5. Analyze how to achieve professional growth in industry. **(LO5)**
6. Reflect on feedback provided by supervisor. **(LO6)**

Course Requirements:

Attendance/Participation: All students are expected to log in to their courses regularly throughout the week to receive instruction, materials, and updates from the instructor. It is your responsibility to

check in and submit your assignments, complete your discussion board postings, and finish quizzes and exams by the due dates.

If you do not participate in the course, you will be counted absent. Simply logging in is not enough; you must submit/complete an assignment, post to a discussion board, or other similar assignment tasks to avoid being counted absent. Instructors are required to submit attendance the Monday following each week of class.

This attendance is reported to the Financial Aid Department and may result in the loss of any financial aid refund you are expecting if you have not been participating in your courses. **In addition, you will be administratively dropped from the course if you are reported absent a total of three weeks.**

Other Policies:

Academic Misconduct:

The University prohibits all forms of academic misconduct. Academic misconduct refers to dishonesty in examinations (cheating), presenting the ideas or the writing of someone else as one's own (plagiarism) or knowingly furnishing false information to the University by forgery, alteration, or misuse of University documents, records, or identification. Academic dishonesty includes, but is not limited to, the following examples: permitting another student to plagiarize or cheat from one's own work, submitting an academic exercise (written work, printing, design, computer program) that has been prepared totally or in part by another, acquiring improper knowledge of the contents of an exam, using unauthorized material during an exam, submitting the same paper in two different courses without knowledge and consent of professors, or submitting a forged grade change slip or computer tampering. The faculty member has the authority to grant a failing grade in cases of academic misconduct as well as referring the case to Student Life.

Artificial Intelligence (AI) Guidelines for this Course: (Faculty: Pick one below.)

AI is prohibited: This course prohibits the use of Artificial Intelligence (AI) tools and software. All submitted work must be the student's original work. Students cannot have anyone else or any AI program contribute to their assignments. Students cannot use AI tools to write content, create arguments, develop ideas, or edit their work.

If AI use is suspected without proper attribution in submitted work, the faculty member will communicate with the student. The goal of this communication will be to identify the student's intentions, provide guidance on adhering to the policy, and support the student's learning and improvement. This approach ensures fairness and protects both the student and faculty member from potential misunderstandings or unjust accusations. If a student uses AI in an unauthorized manner, the behavior may be considered academic misconduct.

Electronic Devices:

Use of electronic devices including smart watches and cell phones is prohibited during exams or quizzes unless directly allowed by the instructor.
